

# Skipping Days

Lolawolf

Hanging out on the hotel floor  
If you're down, I'm gonna ask for more  
Feelin' alive, I've been alive before  
Dancin' till my body's sore

She'll it up, she'll it up with me  
Got to pay for good company  
Tell me, tell me, it'll be alright

And I'm always thinkin' of ways  
I'm always thinkin' of ways to get better  
And she keeps on skipping the days  
She will sleep until the night if you let her  
And I'm always thinkin of ways, I'm always thinkin of ways to get better  
And she keeps on skipping the days  
Skipping days

Can't let the night go  
Cause I don't wanna start over  
Can the night go through?  
The days make them much shorter  
I don't know what I'm thinkin' about but I  
I'm feeling cornered  
I think you know what I'm talkin' bout  
This shit seems out of order

Close my eyes, forget about the time  
Waitin' here I'm gonna stand in line  
You know I really hate this town

But she'll get up, she'll get up with me  
Got to pay for good company  
Tell me, tell me, it gon' be alright

And I'm always thinkin' of ways  
I'm always thinkin' of ways to get better  
And she keeps on skipping the days  
She will sleep until the night if you let her  
And I'm always thinkin of ways, I'm always thinkin of ways to get better  
And she keeps on skipping the days  
Skipping days

Can't let the night go  
Cause I don't wanna start over  
Can the night go through?  
The days make them more shorter  
I don't know what I'm talking about but I  
I'm feeling cornered  
I think you know what I'm talking 'bout  
This shit seems out of order
