I start fights 'cause I wanna make up
Sorry, baby, I talk too much, yeah
No more tears, I just wanna make love
Start fights 'cause I wanna make up
I start fights 'cause I wanna make up
Apologize with the way that I fuck, yeah
No more tears, I just wanna make love
Start fights 'cause I wanna make up, ah

Tonight (Oh I)
Been such a naughty girl
I keep causing problems between you and I (Oh, why)
Do I try to make it hurt?
Think I need something to get me through the night

I could kiss it better, no one gets me wetter
Stay the night, I'll show you why we're meant to be together
Don't wanna test your patience
If you get me naked, I could blow your mind

I start fights 'cause I wanna make up
Sorry, baby, I talk too much, yeah
No more tears, I just wanna make love
Start fights 'cause I wanna make up
I start fights 'cause I wanna make up
Apologize with the way that I fuck, yeah
No more tears, I just wanna make love
Start fights 'cause I wanna make up, ah

Won't admit I'm sorry so I'll tell you with my body
Rev it up like a Ferrari then I play it like Atari
Sweet boy with the tattoos (Ah-ah)
P-p-put him in a bad mood
I know you got more in you
Drop low to the floor for you
Anything to shut you up
On ne dormira pas ce soir
Bébé ferme la (shh)

I could kiss it better (Better), no one gets me wetter (Oh)
