

Miles

Lomelda

When you drove over the river
That's been running through my years
Did you feel it like a lover
Whisper secrets in your ear?

Hear the nearness of a memory?
Smell the ocean where we stood
Looking out into the distance
At the sight of all we could?

All those miles miles miles miles miles
All those miles miles miles miles miles

And if it meant the most to me, would you mind?
Would you mind?
And if it meant the most to me, would you mind?
Would you mind the miles?
