

Thx

Lomelda

Please don't be mad at me
And don't be as sad as me
You've got lots of life left
I can see
The start of another year
And another life in a year
And sometimes when you miss being with me here
You know, we got along without, within, with all I've got
I know we'll get along without
Just please don't be mad at me
There's no need to be sad for me
I've got lots of love left
