

Freedom

London Boys

Peace was on my mind
When I woke up I was cryin'
'Cause my dream had gone
And the vision I could see
All the world would truly live as one

There's no place for doubt and fear
At this special time of year
If you're young at heart
We are solid walls of sound
And we're singing every word out loud

Freedom for all
That we keep once and for all
That is my prayer
I know
There's bound to be sweet

Freedom for me
And all the world that I see
I have a dream
Gonna live it together
Everybody all around the world

Years are rushing by
Time is short for you and I
Will we ever learn?
Give your fellow man a hand
Only love will make the tables turn

So let's all stand up and fight
'Gainst the killing and the strive
'Cause we got no choice
Every minute, every hour
Sing out loud and shout it
You're the voice
