

Wichitah Woman

London Boys

Love was gone in your eyes
Like the clear morning skies
Our love would never be
The cheerful days
The stormy nights
A burning mystery

Like a thief in the night
Run away and I hide
Don't know the reason why
I lie away and think of you
I love you
For the rest of my life

Fell in love, got it rough
Had enough with a Wichitah woman
She was cool like a breeze
Looking out for a Wichitah man, wooh!
Fell in love, got it rough
Had enough with a Wichitah woman
She thought I was the one
But I wasn't her Wichitah man!

She said: Hugh! Hugh! Get on down
She said: Hugh! Hugh! Get on down
She said: Hugh! Hugh! Get on down
She said: Boy, you turn my life around and
Hugh! Hugh! Get on down
She said: Hugh! Hugh! Get on down
She said: Hugh! Hugh! Get on down
She said: Boy, you spin me turning round and round

Eagle fly in the night
Take me high in the sky
That's where I wanna be
The wheels of time
Will take it rhyme
A page of history

Silver moon in the night
Broken dreams in my mind
Don't know the reason why
I lie away and think of you
I love you
For the rest of my life

Fell in love, got it rough
Had enough with a Wichitah woman
She was cool like a breeze
Looking out for a Wichitah man!

She said: Hugh! Hugh! Get on down
She said: Hugh! Hugh! Get on down
She said: Hugh! Hugh! Get on down
She said: Boy, you spin me turning round and round

Fell in love, got it rough

Had enough with a Wichitah woman
She was cool like a breeze
Looking out for a Wichitah man, woohh!
Fell in love, got it rough
Had enough with a Wichitah woman
She thought I was the one
But I wasn't her Wichitah man!
