Bones of Ribbon

London Grammar

Take my efforts high above red hues Bones of ribbon don't stop me now Whites went blue, then went yellow Feet don't stop me now They found me there in the sands Bones of ribbon in my hands Whites went blue, then went yellow Pull off the cloak, time off the wall

Take determination Take whatever you need 'Cause your body's made of metal And your skin, it isn't real

Found me there in the sands Bones of ribbon in my hands Whites went blue, then went yellow Please don't stop me now

Take determination Take whatever you need 'Cause your body's made of metal And your skin, it isn't real

They found me there in the sands Bones of ribbon in my hand Whites went blue, and then went yellow And your feet don't stop me now Feet don't stop me now

Well you know when you know, hey Oh no, do you know it enough, hey You won't know 'till you know it enough You won't know 'till you know you know it enough Feet don't stop me now Feet don't stop me now
