

Control

Lonely The Brave

Hope you're safe
In the car
At deadlights
Cause there's a war on the cards
That aint right

So that you don't
See that we've lost control
Just so you know
There'll always be us and you

My dead heart
Falls in
Feel it's been coming
Since first spin
Cause those city cars
Aint the same to me
I fall out of bars
And courtyards
And feel like I've done it

So that you don't
See that we've lost control
Just so you know
There'll always be us and you

So that you don't
See that we've lost control
Just so you know
There'll always be us and you
