

# I Don't Know How To Do That

Lonestar

Wish that I could be just a little more convincing  
When I hear me saying "fine, how 'bout you"  
You look like you're making out alright  
Can't say it's good to see you here tonight  
Guess I could try to mix small talk and play it cool

I don't know how to do that  
Fake a smile and act like it don't hurt  
I don't know how to do that  
Just pretend you don't matter anymore  
You found a way to start allover again  
I know I should, I wish I could forget  
I don't know how  
I don't know how to do that, no no

You'd think by now I'd have long since forgotten  
But there's a part of me that just keeps hangin' on  
And even if there's not a chance, I can't seem to understand  
How to live my life now that you're gone

I don't know how to do that  
Fake a smile and act like it don't hurt  
I don't know how to do that  
Just pretend you don't matter anymore  
You found a way to start allover again  
I know I should, I wish I could forget  
I don't know how  
I don't know how to do that, no no

I thought for sure it won't be long till you come runnin' back  
But I'm still tryin' to find a way to put you in the past

I don't know how to do that  
Fake a smile and act like it don't hurt  
I don't know how to do that  
Just pretend you don't matter anymore  
You found a way to start allover again  
I know I should, I wish I could forget  
I don't know how  
I don't know how to do that, no, no, no  
I don't know how to do that, fake a smile  
I don't know how to do that

...
