

Oh, oh, oh, oh, yeah
Did we end up bitter and broken
Always leavin words unspoken
Your eyes in the silence says it all
Wish we could find a way to reset
Before we end up tangled in regrets
You're all I'm needing
Let's stop the bleeding
I miss the way it was

What's happening to us, us, us
All we do is fight and fuss, fuss, fuss
It's getting to our hearts, tearing us apart
And I can't help wandering
Are we given up, up, up
Gonna throwaway, our love, love, love
Are we running out of time
Or can we redefine
What's happening to us, us, us

Oh, I wanna taste your sweet-born kisses
Get back to loving, touching, feeling
We can refault, tear down this wall
I've never wanted something so much

What's happening to us, us, us
All we do is fight and fuss, fuss, fuss
It's getting to our hearts, tearing us apart
And I can't help wandering
Are we givin' up, up, up
Gonna throwaway, our love, love, love
Are we running out of time
Or can we redefine
What's happening to us, us, us

Love, what's happening to us
All we do is fight and fuss
It's getting to our hearts, tearing us apart
Are we givin' up, up, up
Gonna throwaway, our love, love, love
Are we running out of time
Or can we redefine
What's happening to us, us, us
Oh, what's happening to us, us, us
Oh, what's happening to us
Oh, oh, oh, yeah
