

Demon's Call

Lonewolf

The winds of hell were howling
A storm raging in my head
Walls came crushing down and I felt already dead
The fight of a whole life
Against demons so fierce and dark
I felt I was falling
I embraced eternal black

Fight - live - die - live

Demon's call - a force of darkness
Demon's call - seductive and sweet
Demon's call - but light was stronger
Demon's call

And I hear them calling my name a thousand times
The point of no return I touched it one winter night
A 24/7 fight, you were here enduring pain
My fight was yours too and we won in the end

Fight - live - die - live

Demon's call - a force of darkness
Demon's call - seductive and sweet
Demon's call - but light was stronger
Demon's call
