

## Evil

Lonewolf

We are the shadows that no one wants to see  
We are the blood that curses eternity

Perfect illusion of freedom's ideals  
Horned are the masters of your world of lies

We hide in the dark  
You don't know us yet we rule the world  
Profits and slaves  
Our engagements for the new age

No revolution danger, man is too self centered  
His eyes cannot see so his mind cannot know

We hide in the dark  
You don't know us yet we rule the world  
Profits and slaves  
Our engagements for the new age
