

## Raised On Metal

Lonewolf

The 80's were the years  
That have changed my whole life  
A holy tape in my hand  
Became religion till I die  
The mighty "Life After Death"  
Was my first step into Hard rock  
It took away my breath  
I was in total shock

I am a metalhead, in my heart and my soul  
I was raised on metal, raised on metal

Then came "The Last Command"  
I already couldn't get enough  
I always needed more  
The greatest shock was yet to come  
"Under Jolly Roger"  
Branded my whole way of life  
I've never been the same  
My destiny was sealed on that night

I am a metalhead, in my heart and my soul  
I was raised on metal, raised on metal
