

If We Ever Live Forever

Longwave

Picture of gold
Picture of silver
Over and gone
Over and over

Picture of gold
Picture of silver
Over and gone
Over and over again

Come inside, you're alone
Just pick up the pieces
In black and white
Holding on, over and over again

The night is quiet, so pretend
New mysteries unfold
Dark and wild, that's when
You can feel them come

Start to race it, all to one
Don't keep me waiting
It's deeper than you
Something wicked this way comes
Don't keep me waiting
It's deeper than you look
Picture of gold
Picture of silver
Over and gone
Over and over again

All the nights alone
??? have time to let go
Black and white, you're holding on
Over and over again

The night is quiet, so pretend
New mysteries are revealed
Dark and wild, that's when
You can feel them come

Overtaken, before you run
Don't keep me waiting
It's deeper than you
Something wicked this way comes
Don't keep me waiting
It's deeper than you look

Now you're changing, never done
Don't keep me waiting
It's deeper than you
Something wicked this way comes
Don't keep me waiting
It's deeper than you look
