

## No Direction

Longwave

When you run and you run with no direction  
If you run and you run with no direction  
Got no direction home, got no direction home  
All your days that you lost, you lost for something  
And all your days that you lost, you lost for something  
Something you can own, something you can own

Don't you run away? Don't you run away?

All your days that you lost, you lost for something

And all your days that you lost, you lost for something  
You're not so far gone, no, you're not so far gone

Don't you run away? Don't you run away?

When you run with no direction  
When you run with no direction

Don't you run away? Don't you run away?  
Don't you run away with no direction?  
Are you run away with no direction?
