

## South Bound Backwater

Lonnie Johnson

It's been snowing forty days : and the ground is covered  
with snow

I'm snow-bound in my cabin : and ice up around my door

I woke up this morning : couldn't even get out my door  
I was snowbound in my cabin : had water seeping up  
through my floor

Snow begin melting : and the rain begin to fall  
The backwaters done broke the levee : and I can't stay  
here no more

Rowed my boat : just about four miles across the pond  
Backwater done wrecked my cabin : and there's no place  
that I can call my home
