

## Darkness

### Looptroop Rockers

Yes I remember the writings on the walls That's the only way I  
can find my way home Not afraid of the dark, darkness is my onl  
y friend On run from the boys in blue once again

My city is hostile It's soul sold to the highest bidder Kids bu  
rn it with the hot style It's too cold, gotta survive the winte  
r Caution fences, motion sensors And now they've banned the bum  
s from the benches Is that the kind of world we wanna live in?  
We change the face of the city or face the consequences Gotta w  
ork in the shadows - silhouettes on the pavement Behind enemy l  
ines is the playpen So when the sund goes down, the hoodie goes  
up Move carefully to stay most up - Light footed - Watching ev  
ery single step - Silence - All I hear is heartbeats in my ches  
t We've been to places we never knew existed With people you ne  
ver knew was this gifted

Yes I remember the writings on the walls That's the only way I  
can find my way home Not afraid of the dark, darkness is my onl  
y friend On run from the boys in blue once again

All of my senses can feel the suspense It's something in the ai  
r tonight It's in my belly, in my bags and the clothes that I w  
ear tonight I can't explain it's something in the air tonight I  
step out breathe in the fresh air tonight - Darkness - I ain't  
scared tonight Anticipations in the air tonight Never been her  
e before but I'm here tonight - Electricity - In the air tonigh  
t I can feel the smell of trains In the air tonight - Confidenc  
e - In the air tonight If you feel it put your hands in the air  
tonight

Yes I remember the writings on the walls That's the only way I  
can find my way home Not afraid of the dark, darkness is my onl  
y friend On run from the boys in blue once again

Once again those sirens Who's firing? Who's doing the dying? Ma  
ny lose direction out there No lying Alot of snakes, alot of ra  
ts, a few lions When the kings of the jungle move unseen Some o  
f the kids made a quick bundle of cash I hear 'em speeding down  
my street Know one thing Live fast, die young, hard facts But  
who am I to judge my brother I see your situation, it's what we  
teach you to do So you keep an eye out my brother Be safe, I'm  
just running with the night like you

In the air tonight In the air tonight In the air tonight If you  
feel it put your hands in the air tonight

Yes I remember the writings on the walls That's the only way I  
can find my way home Not afraid of the dark, darkness is my onl

y friend On run from the boys in blue once again
