

Hungry

Loose Ends

Hungry

Sitting in my room staring into space
The walls are closing in, just a part of
Another lonely night, a desperate call
I ain't got no money and that's what hurts me most of all

So don't stop to give a lecture to me
'Cause I'm the one who's hungry can't you see
It's very easy when you're in a safe place
To keep your distance, that's the bottom line baby

Hungry then and when you're hungry
And the rain is coming down
Down when you're down
And there ain't no friends around

Eventhough you try, you can't disguise
When you set your table, there's no food for hungry eyes
How do I get by and how should I survive
Pretending to be happy when there's teardrops in my eyes

So don't stop to give a lecture to me
'Cause I'm the one who's hungry can't you see
It's very easy when you're in a safe place
To keep your distance, that's the bottom line baby

Hungry then and when you're hungry
And the rain is coming down
Down when you're down
And there ain't no friends around

Ain't no friends around you
(Yummy, feed me)

So don't stop to give a lecture to me
'Cause I'm the one who's hungry can't you see
It's very easy when you're in a safe place
To keep your distance, that's the bottom line baby

Hungry then and when you're hungry
And the rain is coming down
Down when you're down
And there ain't no friends around

One, two, holding my shoe
Three, four, set on the floor
Five, six, break my lip
Seven, eight, no

Hungry then and when you're hungry
And the rain is coming down
Down when you're down
And there ain't no friends around
