

Let's Rock

Loose Ends

There's no stress 'bout when we came down and groove
All the weeping has to stop when we move

So let's rock
Then we can rock it to the beat
Let's rock
Just let your body feel the heat
Let's rock
Just feel excitement when you move
And you've got nothing else to prove
Hold on
Hold on

Every closed door opens when we're in town
Once we're started everyone gathers round

So let's rock
Just feel excitement when you move
Let's rock
And you've got nothing else to do
Let's rock
worries off your mind
Just let the music take you higher

Let's just see if we can groove you
Maybe we'll get hot tonight
Got no reason to frown
Come join with us tonight
Glad to have you around
While we're all rocking tight
Tight

Let your your system
Rock rock rock
Let your your system
Rock rock rock
Let your your system
Rock rock rock
Let your your system
Rock rock rock

Got no worries, got no reason to frown
Come and join us, we're glad to have you around

So let's rock
'Cause all the weeping's got to stop
Let's rock
And everyone has gotto rock
Let's rock
Just feel excitement when you move
Let's rock
Join us
Join, join us

Rock
Let your your system

Come and rock with me
Come on rock with me
