

You like it like this  
I don't

Some can't change the world but it may help a little to grow up  
Spend a lot of time singing song baby  
I've been watching everything coming out through my TV screen  
Trouble is I can't decide what's the trick and who is lying

Rocking on, dealing on, stealing on,  
Rocking on, dealing on, stealing on,

Life don't treat me nice  
Pocket full of silver  
So I'm running for my diner  
Life don't treat me nice  
Pocket full of silver  
So I'm running for my diner

I've been wary trying stand on the other side of the looking glass  
Saw myself driving 'round for days  
Each and every man has got a plan 'bout how you should spend your money  
But I know what's true and it sure ain't coming out of you

Life don't treat me nice  
Pocket full of silver  
So I'm running for my diner  
Life don't treat me nice  
Pocket full of silver  
So I'm running for my diner

Rocking on, dealing on, stealing on, was interrupted  
Rocking on, dealing on, stealing on, was interrupted

Life don't treat me nice  
Pocket full of silver  
So I'm running for my diner  
Life don't treat me nice  
Pocket full of silver  
So I'm running for my diner

'Cause you're down when you're down

No money for my diner
