

Remote Control

Loose Ends

Take it out

When I first met you I must have been possessed
How could I not see you caused me such distress
And your every flaws with untold vibes
And you're far too bold and I'm far to wild

I'm doing all the missing, you're doing all the kissing
Just a little love I'm missing,

Maybe I ain't no remote control
Maybe I ain't no remote control
Maybe I ain't no remote control
Maybe I ain't no remote control

A little control never hurt no one
Don't get me wrong if I sound too strong
Gonna live my life the way I wanna do
Any way I chose, I'm sure to lose

I'm doing all the missing, you're doing all the kissing
Just a little love I'm missing,

Maybe I ain't no remote control
Maybe I ain't no remote control
Maybe I ain't no remote control
Maybe I ain't no remote control
Just want you to know
Doctor
Pick me up, switch me off

I wanna be your doctor, can you understand
Wanna be your every day and every nightmare babe
Wanna be your doctor, do you treat me right?
I wanna be your every pain and every nightmare boy

Maybe I ain't no remote control
Maybe I ain't no remote control
Maybe I ain't no remote control
Maybe I ain't no remote control
Saxophone
All alone

I'm doing all the missing, you're doing all the kissing
Just a little love I'm missing,

Maybe I ain't no remote control
Maybe I ain't no remote control
Maybe I ain't no remote control
Maybe I ain't no remote control
