Sensitive (English Ver.)

Loossemble

Every single moment passing
got that intuition
The thrill is running through me
Oh my instinct is so good (So good)
I don't even gotta think it
It falls in place just like it should
I got it woo
I'm gettin' tired of being too good

I'm a different kind I shine I know
what you'll never know
It's clear It's near You better come
meet my flow (Oh yeah)
The sweetest chocolate I pick up
on the bitter flavor (Oh yeah)
Don't miss a heartbeat Yes I feel it right

So
Sensitively takin'
I want it all to my taste
Know my destination
My intuition perfect
Sensitively takin'
I know the path Imma chase
Imma do it my way
Control my every step

So tell me (Ah ah) (Left right left right)
Sensitive (Ah ah) (That's right that's right)

Oh wait a sec wait a sec, awesome
It's gonna click gonna click, feel strong
It is living in the air Never gonna come down
I know I can't go wrong

I can't deny
I'm a lucky charm
I know I'm right
[Hyun/Hye] Destiny in my palm

It is a sign Radar Built in my soul
A wild fire It burns I'm on a roll (Huh, Alright)
And in this moment
I know that I'm gonna own it (Alright)
I will not miss it Yes I feel it right

So
Sensitively takin'
I want it all to my taste
Know my destination
My intuition perfect
Sensitively takin'
I know the path imma chase
Imma do it my way
Control my every step

So tell me why

Oh don't need no calculations
It won't please your expectations
Yeah starting a new Let's go back
Why
Are all the answers to all my questions
Just follow your own sensations
Trust every breath I breathe Ah

Oh shake your body like dumdi-dumdi-dum
(Hey hey hey hey)
Uhm Shake your body like dumdi-dum
It's shining on me, moonlight
It pulls me into orbit
It's gonna be my guide hold on
tight Let's fly high ah
I'm feeling it strong

So
Sensitively takin'
I want it all to my taste
Know my destination
My intuition perfect
Sensitively takin'
I know the path Imma chase
Imma do it my way
Control my every step

So tell me (Ah ah) (Left right left right)
Sensitive (Ah ah) (That's right that's right)
So tell me (Ah ah) (Left right left right)
Sensitive (Ah ah) (That's right that's right)
