

Back Together

Loot

I miss you
Driving us off the road
Driving each other mad
We were dysfunctional
And I miss you
Running through red lights and
Banging on my front door
Begging for me to let you in

Ooh, you get under my skin
For better or worse

Baby, we should get back together
We should get back together
I know, we get drunk and remember
We should get back together

(Can we go back now?)
(Can we go back now?)
We should get back together

You miss me
Driving us both insane
You make it easy
Playing these twisted games
Shouting and waking the neighbors up
All of the "I hate you"'s
Fighting and making love

Ooh, you get under my skin
For better or worse

Baby, we should get back together
(Can we go back now?)
We should get back together
I know, we get drunk and remember
(Can we go back now?)
We should get back together
I can't promise nothing

I can't promise that this isn't
Just another bad decision
I still got you in my system
I'm still making bad decisions, ooh
And all we wanted was space

Baby, maybe, we should get back together
(Can we go back now?)
We should get back together
(We should go back)
I know, we get drunk and remember
(Can we go back now?)
We should get back together

Baby, you know, I can't promise that this isn't
Just another bad decision (I can't promise)
I can't promise that this isn't (Ain't another one)

Just another bad decision
