

Don't Call Me

Loot

You never seemed to stay close to me
You love making me watch you leave
You always got one foot out the door
And I don't wanna, I don't wanna do this no more

You keep calling back, what you tryna prove?
So keep calling back, you got nothing to lose
You don't know me at all, you don't need me at all

You're never here when I need you
I, I'm not sticking 'round just to please you
I've got nothing to say, call it speechless
If you need anything at all, don't call me
If you need anything at all, don't call me

You never stayed like you said you would
You always say you're misunderstood
(You try to convince me that it's for the best)
(Scratch and start over like we make amends)
But I don't wanna, I don't wanna do this again

You keep calling back, what you tryna prove?
So keep calling back, you got nothing to lose
You don't know me at all, you don't need me at all

You're never here when I need you
I, I'm not sticking 'round just to please you
I've got nothing to say, call it speechless
If you need anything at all, don't call me
If you need anything at all, don't call me
If you need anything at all, don't call me

Don't call me, d-d-don't call me, no
Don't call me, d-d-don't call me
(No, don't call me)

You try to convince me that it's for the best
Scratch and start over like we make amends
Don't call me, d-d-don't call me

If you need anything at all, don't call me
If you need anything at all, don't call me
(Don't call me)
Don't call me, d-d-don't call me
(No, don't call me)
Don't call me, d-d-don't call me, ooh
Don't call me, d-d-don't call me
