

## Good To Me

Loot

There's a drink in my hand  
I don't know where I am  
In a room full of no one I know  
And the moment I chase  
'Cause I can't seem to wait  
Disconnect from the body I know  
Wanna taste it, wanna breathe it, wanna take it in  
Before I leave it, leave it hanging in a hotel bathroom

Where we've been dreaming in California  
We've been dreaming, I'm coming for you  
Where we've been dreaming in California  
We've been dreaming, I'm coming for you

Ooh, I love, love you now till my love runs out  
Just be good to me, good to me, yeah  
We're face to face, think I like how you taste  
Just be good to me, good to me  
Just be, good, good to me  
Be good, be good to me  
Just be, good, good to me  
Be good, be good to me

There's a ship in the night  
Looking up at the lights  
Telling me I'm in over my head  
So we go for a drive  
On the next boulevard  
While I'm whispering under my breath  
Let me taste it, let me breathe it, wanna take it in  
Before I leave it, leave it hanging in a hotel bathroom

Where we've been dreaming in California  
We've been dreaming, I'm coming for you

Ooh, I love, love you now till my love runs out  
Just be good to me, good to me, yeah  
We're face to face, think I like how you taste  
Just be good to me, good to me  
Just be, good, good to me  
Be good, be good to me  
Just be, good, good to me  
Be good, be good to me

Just be, good, good to me  
Be good, be good to me  
Just be, good, good to me  
Be good, be good to me
