

# Out Of My Head

Loot

I am the queen of overthinking  
That's why I'm always drinking  
Something to get me  
(Outta my head, outta my head)  
Tonight, I'm tryna make bad choices  
So I can drown these voices  
Wish I could get them  
(Outta my head, outta my head)

I'm sorry, I don't talk then I talk too much  
But you get me

Baby, you get me out  
When I don't wanna leave my house  
You get me outta my head  
{You get me out my head}  
When I don't wanna leave my bed  
You get me outta my head  
So let me get in yours  
(Outta my head, outta my head)  
I think I like you, babe  
You get me out, right out my head  
You save me from myself  
So let me get in yours

I am too young to be this stressed out  
Tell me to wear this dress out  
Somehow to get me

Outta my head, outta my head  
Well I say, you spend too much on makeup  
Look the best way you wake up  
That why we don't get  
Outta my bed, outta my bed

I'm sorry, I don't talk then I talk too much  
But you get me

Baby, you get me out  
When I don't wanna leave my house  
You get me outta my head  
{You get me out my head}  
When I don't wanna leave my bed  
You get me outta my head  
So let me get in yours  
(Outta my head, outta my head)  
I think I like it  
You get me out my, right out my head  
You save me from myself  
So let me get in yours

Pour it up, pour it up  
Then act like this is my shit  
You get me outta my head, I think I like it  
Pour it up, pour it up  
Then act like this is my shit  
You get me outta my head, I think I like it

I am the queen of overthinking  
You're never sick of listening  
Even when I get outta my head (Outta my head)

I'm sorry, I don't talk, then I talk too much  
But you get me

Baby, you get me out (Baby, you get me out)  
When I don't wanna leave my house (Don't wanna leave my house)  
You get me outta my head (Get me outta my head)  
When I don't wanna leave my bed  
You get me outta my head  
So let me get in yours

Pour it up, pour it up  
Then act like this is my shit  
You get me outta my head, I think I like it  
Pour it up, pour it up  
Then act like this is my shit  
You get me outta my head, I think I like it
