

Pushing Daisies

Loote

Are you nervous?
Does holding your gun make it hurt less?
Are you searching?
Well, it's all relative to where you stand
And you call yourself a man

But sometimes quiet is violent
Science is lying
Sometimes we try to be kind but
People are dying

I've been pushing daisies
Ever since I was 18
Everybody wants us dead or alive
The fucking kids aren't alright
They're calling us crazy
Hollywood's burning, baby
Everyone's busy picking a side
While all the kids aren't alright this time

Am I worthless?
Is singing the wrongs who deserve this
Are we learning?
Well, it's all relative to what you see
In the news and on TV, ooh

But sometimes quiet is violent
Science is lying
Sometimes we try to be kind but
People are dying

I've been pushing daisies
Ever since I was 18
Everybody wants us dead or alive
The fucking kids aren't alright
They're calling us crazy
Hollywood's burning, baby
Everyone's busy picking a side
While all the kids aren't alright

Oh, if we all lay here on the ground
When I look around
Oh, say we're changing the way that we are
How could we not?

But I've been pushing daisies
Ever since I was 18
Everybody wants us dead or alive
But all the kids aren't alright
Crazy, Hollywood's burning, baby
Everyone's busy picking a side
While all the kids aren't alright this time

Daisies
