

# This Is How U Feel

Loot

This is how you feel when you think of me  
This is how you feel when you think of me  
This is how you feel when you think of me  
This is how you feel when you thinkin' of me

Said that you don't see me with anyone else  
Now I don't feel so crazy  
For wanting you all to myself  
Sitting on the floor of your BNB  
In New York, I knew back then but I never say what I mean  
Remember back when we were

Talking to the ceiling  
To each other, I can feel it  
'Cause this is feelings I believe in  
And this is powerful and real like  
Lying in your back seat, time stops  
Rain on the windows of your car

This is how you feel when you think of me  
This is how you feel when you think of me  
This is how you feel when you think of me  
This is how you feel when you think of me

I just got off work, I'll be over in 5  
And it's raining cats and dogs  
And I'm running a couple of lights  
And if they pull me over, I'm ready to lie  
And just so I get to you a little bit faster tonight  
Remember back when we were

Talking to the ceiling  
To each other, I can feel it  
'Cause this is feelings I believe in  
And this is powerful and real like  
Lying in your back seat, time stops  
Rain on the windows of your car

This is how you feel when you think of me  
This is how you feel when you think of me  
This is how you feel when you think of me  
This is how you feel when you think of me

Remember back when we were  
Talking to the ceiling  
To each other, I can feel it  
Feelings I believe in  
This is powerful and real  
Lying in your back seat, time stops  
Rain on the windows of your car

This is how you feel when you think of me  
This is how you feel when you think of me  
This is how you feel when you think of me  
This is how you feel when you think of me

Talking to the ceiling

To each other, I can feel it  
'Cause this is feelings I believe in
