

Long Lost

Lord Huron

Leave me where the light pours down through the trees like rain
Let it wash over me like a flood, let it ease my pain
Let it drown me

For a while I was held by the myth of the Lost Highway
In the spell of the night and the lights of the Great White Way
I ain't lonely, are you?

Send me to the mountains, let me go free forever
I'll be running through the forest dancing in the fields like t
his

Leave me where the moonbeams carve through the leaves like blad
es
Lay me in the tall-grown grass in a shallow grave
Let it have me

I've got a place in the world and I found out where
Out in the night all alone in the Way Out There
I ain't lonely, I'm long lost
Say goodbye
Long lost
Out of my mind

Long lost

Send me to the mountains, let me go free forever
I'll be running through the forest dancing in the fields like t
his

Send me to the mountains, let me go free forever
I'll be running through the forest dancing in the fields like t
his

Long lost
Long lost
Long lost
