

Watch Me Go

Lord Huron

You've got a lot to tell me, but I'd rather not know
And I was glad to see you, but it's better I go
I'm gonna step outside and take the air
I'm getting far away from here, I don't care where

'Cause I see what I'm becoming, yeah
I wanna ride with the wind, I don't wanna die slow
You didn't see me coming, no
But you can watch me go

Hey, you can watch me go
Yeah, you can watch me go
Hey, you can watch me go

Yeah, I had a life that was real, but you took it all from me
I should have seen you were trouble, and I shouldn't have stayed
I've got a phantom pain that never fades away
I made a deal with the devil, but I never got paid

You got a lot to gamble for a little bit more
And where the arrow leads, you never know
Hey, I'd better step outside and wait a while
I've got a heavy feeling you could end my life

'Cause I see what I'm becoming
Oh, I wanna live like I mean it, I don't wanna die slow
You didn't see me coming, no
But you can watch me go

Hey, you can watch me go
Hey, you can watch me go
Hey, you can watch me go

Hey
