Lord Of The Lost

I'm a bomb wrapped in glitter
I'll explode at your first command
I will burn as a sinner
But I won't drink the blood from your hands
I'm a crack in the mirror
I am everything you despise
I'm considered a failure
A disgrace to a world full of lies
With no way to go

Absolute attitude

No one can break your own truth
You'll stand forever
No one tells you what to choose

Absolute attitude
Absolute attitude

All my thoughts are forbidden
My words are the ones you deny
I'm the one to be distant
You're the one with the need to define
You abhor my existence
I'm the one to resist and defy
With a way to go

No one can break your own truth
You'll stand forever
No one tells you what to choose

All of the pain you've been through
You stay untethered
Stay strong in all that you do
