

Forever Lost

Lord Of The Lost

Another abyss
Another abyss
Another abyss
Another abyss

I stole the gold from the sun
And the silver from the moon
I drank the blood from your hands
And I walked us through eternal doom

(Another)
When the rivers dry we'll be long gone
(Abyss)
No need to compromise
(Another)
If there is a God then I'm their child
(Abyss)
Who's lost the fear to die

When the skyline's broken
You and me far from belief
In this moment forever lost
And the skyline's broken
You and me dance in the streets
The end is open
I'm not forever lost
(Forever lost)

I stole the seed from the earth
And the colours from the sky
I choked the breath from all being
Eclipsed the stars in your eyes

(Another)
When you ask me why I'll tell you true
(Abyss)
It was all because I could
(Another)
And the easy path was safer than
(Abyss)
The burden to be good

When the skyline's broken
You and me far from belief
In this moment forever lost
And the skyline's broken
You and me dance in the streets
The end is open
I'm not forever lost
(Forever lost)
(Forever lost)

I stand here, the reason why death is in season
The calling is coming
And no, it can't be undone

I harnessed the hurt

No switch to reverse
I have reached the point of no return

When the skyline's broken
You and me far from belief
In this moment forever lost
And the skyline's broken
You and me dance in the streets
The end is open
I'm not forever lost
I'm not forever lost
