

Iskarioth

Lord Of The Lost

I can forgive
An enemy
But not someone
So close to me
We held the gold
Not long ago
A faithful trust
A common goal

And it was night

Other than truth
I feared nothing
Suffered the cruel
Time and again
Cut by the stones
They threw my way
Back when I knew
We could not fall

Other than truth
I feared nothing
Suffered the cruel
Time and again
Sacrificed
All for one thing
Impure revenge

Oh, the bitter end
Of empathy
That putrefied
Your legacy
Your death bell tolls
My heart aglow
A fatal trust
A friendless foe

Other than truth
I feared nothing
Suffered the cruel
Time and again
Cut by the stones
They threw my way
Back when I knew
We could not fall

Other than truth
I feared nothing
Suffered the cruel
Time and again
Sacrificed
All for one thing
Impure revenge

Who's justified?
Who truly lied?

No discussing
Who played the part
With all their heart

Other than truth
I feared nothing
Suffered the cruel
Time and again
Cut by the stones
They threw my way
Back when I knew
We could not fall

Other than truth
I feared nothing
Suffered the cruel
Time and again
Sacrificed
All for one thing
Impure revenge
