

## It Starts with a Crack

Lord Of The Lost

You said you can read me  
So why can you not see  
What's wrong with the picture  
Blocked out in your mind  
You're telling me the scar  
So how can you ignore  
That I retain control

After all  
I should not fall  
Wherever I go  
There's no longer space for the two of us

It starts with a crack, there's no turning back  
Before it breaks you apart again  
Starts with a crack and watch 'em step back  
Your chance is used to start again

You beg me to return  
But time's up to adjourn  
Decisions that have to be made  
I know I'm inane  
I'm tired of endless repeats  
And you will never defeat  
We're here in my domain

After all  
I should not fall  
Wherever I go  
I just don't have time for this anymore  
But you'll still fall  
Wherever you go  
There's no longer space for the two of us

It starts with a crack, there's no turning back  
Before it breaks you apart again  
Starts with a crack and watch 'em step back  
Your chance is used to start again

And nothing will turn me back  
I'm crushing my doubts  
And nothing will change my mind now I'm rid of my fears

It starts with a crack, there's no turning back  
Before it breaks you apart again  
Starts with a crack and watch 'em step back  
Your chance is used to start again

It starts with a crack  
It starts with a crack  
It starts with a crack  
It starts with a crack
