

# Leave Your Hate in the Comments

Lord Of The Lost

(Fuck all y'all)

You want to be seen  
Your voice to be heard  
Approval is what you desire  
Full of hate  
You want respect  
You need to control  
You're desperate to be admired  
Full of hate

Blame us, degrade us  
Tell us that you hate us  
We're cringe and we suck  
And we need to die

This is your moment  
This is your life  
This is your stage

Leave your hate in the comments  
Save your hate in the cloud  
If it makes your life better  
Let it all out  
Type your hate in the comments  
Write here, write now  
If no one's there  
We're here for you, ah ah

No love, no life  
No end in sight  
No hope, no friends  
This is your chance  
Leave your hate in the comments

Trolling with bait on your Highway to Hate  
You found your meaning in life

Say it, defame it  
No need to restrain it  
We're stupid, we're useless  
We need to quit

Attack us, be reckless  
Attend to the masses  
We're crap and we're faggots  
We're not enough

This is your moment  
This is your life  
This is your stage

Leave your hate in the comments  
Save your hate in the cloud  
If it makes your life better  
Let it all out  
Type your hate in the comments

Write here, write now  
If no one's there  
We're here for you, ah ah

No love, no life  
No end in sight  
No hope, no friends  
This is your chance  
Leave your hate in the comments  
Leave your hate in the comments

You keep on pretending  
That you do the right thing  
So sad and so lonely  
Your mom must be proud  
You are a slave to your faceless hate  
You hate what you don't know  
And you cannot control  
You need it, you breathe it  
You really believe it  
A killer that cannot be caught

No love, no life  
No end in sight  
No hope, no friends  
This is your chance

Leave your hate in the comments  
Save your hate in the cloud  
If it makes your life better  
Let it all out  
Type your hate in the comments  
Write here, write now  
If no one's there  
We're here for you, ah ah

(Hate me baby, one more time)
