

# Love & Hate

Lord Of The Lost

You look so pretty when you die  
(So pretty when you die)  
You look so pretty when you die before my eyes  
You look so lustful when you bleed  
(So lustful when you bleed)  
You look so lustful as your life is dripping on your knees

You look so pretty when you die  
It's always blacker on the other side  
I'm only happy when you cry  
We want it - we need it  
We love it - we kill it  
Let's go!

Love and hate  
We're born to give and take  
We're born to die (We're born to die)  
To fade away  
Give and take  
We're born to love and hate  
We're born to die (We're born to die)  
To fade away

Love and hate  
We're all just born to die  
Give and take  
We're born to fade away  
Love and hate

I'm only happy when you cry  
(You die before my eyes)  
I'm only happy when you cry to make me feel alive

You look so pretty when you die  
It's always blacker on the other side  
I'm only happy when you cry  
We want it - we need it  
We love it - we kill it  
Let's go!

Love and hate  
We're born to give and take  
We're born to die (We're born to die)  
To fade away  
Give and take  
We're born to love and hate  
We're born to die (We're born to die)  
To fade away

Love and hate  
We're all just born to die  
Give and take  
We're born to fade away  
Love and hate

Love and hate  
We're born to give and take

We're born to die (We're born to die)  
To fade away  
Give and take  
We're born to love and hate  
We're born to die (We're born to die)  
To fade away
