

No Respect For Disrespect

Lord Of The Lost

Here you are with your lifeless smile
You're elite, we are scum
And you aim at your targets
But there are no bullets in your gun

Anything you've said
It's never clever
Just designed to cause a fall
And all that is left
No respect for disrespect

Your rage and your ache
A reflection
Of your ever loveless hell
All your life, your path and your past
A rejection
Wanna fuck with me I'll be back
No respect for disrespect

Owe a lot to your empty mind
But pristine vanity
Everything you've done
Forever severed

You from all you have appalled
No curse can be blessed
No respect for disrespect

Your rage and your ache
A reflection
Of your ever loveless hell
All your life, your path and your past
A rejection
Wanna fuck with me I'll be back
No respect for disrespect

Don't waste all the days you've remaining
Embittered, so sore and torn
Is your ego always your hero
Why are you so forlorn?

Your rage and your ache
A reflection

Your rage and your ache
A reflection
Of your ever loveless hell
All your life, your path and your past
A rejection
Wanna fuck with me I'll be back

I'm done with all this patience and pretending
Cause everything must have a limit
It goes in one ear and out the other again
Oh, oh

No respect for disrespect

No respect for disrespect
No respect for disrespect
