

One World No Future

Lord Of The Lost

This isn't Sodom, it's not Gomorrha
This isn't Babylon, it's our Golgotha
This isn't heaven, no, this isn't hell
Expect the worst, here comes our spell

I'm calling from the grey
Demise begins today
No way
One world, no future
There is no chance to stay
The prime is in decay
Today
One world, no future

It's fear you're living for
The hope for a chance
It's greed you're lying for
Hate at first glance
It's life you're killing for
With iron hands
It's love you're dying for
When all love ends

I'm calling from the grey
Demise begins today
No way
One world, no future
There is no chance to stay
The prime is in decay
Today
One world, no future

Brace yourself...

I'm calling from the grey
Demise begins today
No way
One world, no future
There is no chance to stay
The prime is in decay
Today
One world, no future
