

## Save Our Souls

Lord Of The Lost

Drifting away  
The echoes will fade  
Say when did we all go so wrong  
The course we have hailed  
The worst to be sailed  
In circles we go on and on

Call out for help  
Time's up

Save our souls from darkness  
(Save our souls)  
Save our souls from silence  
(Save our souls)

Voted for grief  
Own lies we believed  
Together we will drown alone  
The life that we had  
Is not coming back  
In waves atop a flooded home

This ship has sailed away

Save our souls from darkness  
(Save our souls)  
Save our souls from silence  
(Save our souls)

Save our souls from darkness

Save our souls from darkness  
(Save our souls)  
Save our souls from silence  
(Save our souls)  
Save our souls from darkness  
(We're drowning, we're drowning)  
Save our souls from silence  
(Save our souls)
