

# Six Feet Underground

Lord Of The Lost

I said in good times as in bad  
In light as in darkness  
From the first kiss to your last breath  
In light as in darkness

But too much is never enough  
I'm digging my way to my work of art

Deep down in the dark  
Loving you six feet underground  
External love  
So cold from your frozen heart

Deep down in the dark  
Loving you six feet underground  
External love  
I'm loving you six feet underground

I kiss you bleak lips part by part  
In light as in darkness  
My favorite pieces à la carte  
In light as in darkness  
My love will last longer than death  
And night by night you'll be my skin and flesh

Deep down in the dark  
Loving you six feet underground  
External love  
So cold from your frozen heart

Deep down in the dark  
Loving you six feet underground  
External love  
I'm loving you six feet underground

But too much is never enough  
I'm digging my way to my work of art

Deep down in the dark  
Loving you six feet underground  
External love  
So cold from your frozen heart

Deep down in the dark  
Loving you six feet underground  
External love  
I'm loving you

Deep down in the dark  
Loving you six feet underground  
External love  
So cold from your frozen heart

Deep down in the dark  
Loving you six feet underground  
External love  
I'm loving six feet underground

Deep down in the dark  
I'm loving six feet underground
