

The Love of God

Lord Of The Lost

Pity the righteous fighters
Their bodies
Cold in unmarked graves
A poor reward for faith
(The love of God)
No chapter called 'Hereafter'
No matter
How you choose to pray
So breathe another day
(The love of God)

We all have lost
The love of God
(The love of God)
(The love of...)
We all have lost
The love of God
(The love of God)
(The love of...)
We are forlorn
We're lone and torn
Never reborn
The love of God
God!

(The love of God)

The myth of 'good' and 'evil'
That our
Oppressors propagate
Will not decide our fate
(The love of God)
Those in eternal torment
Helplessly
Calling out his name
To their last breath
No-one came

We all have lost
The love of God
(The love of God)
(The love of...)
We all have lost
The love of God
(The love of God)
(The love of...)
We are forlorn
We're lone and torn
Never reborn
The love of God
God!

God, we need to escape
To find a better place
Find some inner peace
In outer space

We all have lost
The love of God
(The love of God)
(The love of...)
We all have lost
The love of God
(The love of God)
(The love of...)
We are forlorn
We're lone and torn
Never reborn
The love of God!
