

# This War

## Lord Of The Lost

If you can tell me  
How it feels  
To hit ground zero  
I'm with you  
Ha, ha, ha

If you can carry  
Mankind's burden  
On your shoulders  
I'm with you  
Ha, ha, ha

Do you really  
Feed the fire?  
Do you really  
Wanna go?

We're proving  
Fate a lie  
Hallow devil  
All of you

I've been through Hell  
And I'm full of pain  
Can't keep it to the  
Beaten track  
Time heals all wounds  
My scars will  
Stay forever  
I have seen Heaven  
From afar  
When I was  
Wishing on a scar  
And I will  
Fight until  
This war is over

This war  
This war

Bon voyage  
Come on stay  
Finally waiting  
Here for you

I have been  
Right there before  
So I won't ask  
Because you

I've been through Hell  
And I'm full of pain  
Can't keep it to the  
Beaten track  
Time heals all wounds  
My scars will  
Stay forever

I have seen Heaven  
From afar  
When I was  
Wishing on a scar  
And I will  
Fight until  
This war is over

Leaving darkness  
Is not up to you  
But night is  
As bright as the day  
For blackest darkness  
Is as light for you  
But night is  
As bright as the day

Leaving darkness  
Is not up to you  
But night is  
As bright as the day  
For blackest darkness  
Is as light for you  
But night is  
As bright as the day

I've been through Hell...

I've been through Hell  
And I'm full of pain  
Can't keep it to the  
Beaten track  
Time heals all wounds  
My scars will  
Stay forever  
I have seen Heaven  
From afar  
When I was  
Wishing on a scar  
And I will  
Fight until  
This war is over
