

When You're Asleep

Lord Of The Lost

Do you know how it feels
When you wake up confused?
That was me
You know that something has changed
But can't remember a thing
That was me
You know that you have lost
Your sense for time and space
That was me
You lock your secrets away
And feed your demon with fear
That is me
That is me
I'll come when you're asleep
I'm coming

I'll come to you when you're asleep
I'll catch you in your dreams
But you won't remember me
I'll come and catch you in your dreams
I'll come when you're asleep
But you'll never know
I'll come when you're asleep

No one will ever know
There's only one you have told
That was me
This room is so dark
And only one holds the key
That is me
That is me
I'll come when you're asleep
I'm coming

I'll come to you when you're asleep
I'll catch you in your dreams
But you won't remember me
I'll come and catch you in your dreams
I'll come when you're asleep
But you'll never know
I'll come when you're asleep

No one will ever know
This room is so dark
And only one holds the key

I'll come to you when you're asleep
(You're asleep, you're asleep...)
I'll come and catch you in your dreams
(In your dreams, in your dreams...)

I'll come for you when you're asleep
I'll catch you in your dreams
But you won't remember me
I'll come and catch you in your dreams
I'll come when you're asleep
But you'll never know

I'll come when you're asleep

Do you know how it feels
When you wake up confused?
You know that something has changed
But can't remember a thing
You know that you have lost
Your sense for time and space
You lock your secrets away
And feed your demon with fear

I'll come to you when you're asleep
(Do you know how it feels)
You're asleep, you're asleep...
(When you wake up confused?)
I'll come when you're asleep
(You know that something has changed)
(But can't remember a thing)
I'll come and catch you in your dreams
(You know that you have lost)
In your dreams, in your dreams...
(Your sense for time and space)
I'll come when you're asleep
(You lock your secrets away)
(And feed your demon with fear)
I'll come for you when you're asleep
You're asleep, you're asleep...
