

Levitation

Lord Vicar

I was just a dreamer
In a complicated world
Looking for a reason
And trying to be heard
Things just got so heavy
And I was heavy too
There is no safe direction
There is no-one like you

Don't forget my story
Now you know the way I feel
God, I feel so empty
And emptiness is pain
Climbing up the ladder
Reaching for the end
I'd reach for the new life
But I have no more strength

Oh, how I wish I could levitate away
Astral wings spread to cut ascending air
The pressure of each and every broken barrier
Some of us were never meant to stay
