

## Oceanic Feeling

Lorde

It's a blue day  
We could jump or leap  
When I hit that water  
When it holds me  
I think about my father  
Doin' the same thing  
When he was a boy  
When he was a boy  
It's a blue day  
We could go fishing  
You'll catch the big one

Slidin' the knife under the skin  
Grateful for this offering  
And all the livin' things under the sun  
Under the sun

Little brother, I think you're an angel  
I see your silver chain levitate  
When you keep flipping  
Baby boy, you're super cool  
I know you're scared, so was I  
But all will be revealed in time (Time, time)

Oh, look, the rays are in the bay now  
Can you hear the waves and the cicadas all around?  
I can make anything real  
Rays so hot, it's a summer body  
Every day is blue and never cloudy  
Don't look down  
I can make anything real

In the future  
If I have a daughter  
Will she have my waist?  
Or my widow's peak?  
My dreamer's disposition or my wicked streak?

Will she swear to die with her lover?  
Laugh with the stars like her mother  
When she was a girl?  
When she was a girl

Now the cherry black lipstick's gathering dust in a drawer  
I don't need her anymore  
'Cause I got this power  
I just had to breathe (Breathe out, breathe out, breathe out)  
And tune in (Tune in, tune in, tune in, tune in)  
I just had to breathe (Breathe out, breathe out, breathe out)  
And tune in (Tune in, tune in, tune in, tune in)  
I just had to breathe  
And tune in  
I just had to breathe  
And tune in  
I just had to breathe

Oh, was enlightenment found?

No, but I'm tryin', takin' it one year at a time  
Oh, oh, can you hear the sound?  
It's shimmerin' higher  
On the beach I'm buildin' a pyre  
(Used the wood brought in by the tide)  
I know you'll show me how I'll know when it's time to take off my robe and s  
tep into the choir
