

# Believe Me

Lordi

It's just another day  
Like every other day  
Don't even think of you  
Since you've gone  
Sometimes the feeling comes  
What if there's something wrong  
I know it can't be true  
Cause you're done

But here you're standing now  
Long time no see  
I have to say that you look better in my memory

Please believe me baby  
Please believe me baby  
I never wanted us to part that way  
I never thought you'd be alive today  
Please believe me baby  
Please believe me baby  
I never thought there's nothing left to say  
I never realized I'd have to pay, no

And she said  
You can't do nothing right  
Not even take my life  
You're bad at everything  
Here's the thing  
Look here, I got your gun  
I'll show you how it's done  
Aim right between your eyes  
Say goodbye

So here I'm standing now  
All apologies  
I have to say I didn't see this coming, so listen to me

Please believe me baby  
Please believe me baby  
I never wanted us to part that way  
I never thought you'd be alive today  
Please believe me baby  
Please believe me baby  
I never thought there's nothing left to say  
I never realized I'd have to pay, no

Please believe me baby  
Please believe me baby  
I never wanted us to part that way  
I never thought you'd be alive today  
Please believe me baby  
Please believe me baby  
I never thought there's nothing left to say  
I never realized I'd have to pay, no
