

Bella from Hell

Lordi

I, I know the secret you're keeping
And I, I can't help that I'm sinking

Even though I think that I'm sane
I still know that I can't get away
And I feel your invisible noose
It's getting tighter, yeah, you won't let me loose

I know you by your name
You've got me hypnotized
Bella from Hell
I know you by your fame
You've got me paralyzed
Bella from Hell

I hear my death knell
Bella from Hell

I, I see you're more than a dancer
And I, I got you in me like cancer

In the crowd our eyes met from afar
And I saw what you really are
Underneath your beautiful face
Grins a skull all covered in flames

I know you by your name
You've got me hypnotized
Bella from Hell
I know you by your fame
You've got me paralyzed
Bella from Hell

I hear my death knell
Bella from Hell

Bella, Bella
Bella, Bella

I know you by your name
You've got me hypnotized
Bella from Hell
I know you by your fame
You've got me paralyzed
Bella from Hell
I know you by your name
You've got me hypnotized
Bella from Hell
I know you by your fame
You've got me paralyzed
Bella from Hell

I hear my death knell
Bella from Hell
