## **Blood Red Sandman**

They called me "The Leather Apron" They called me "Smiling Jack" They prayed to the heavens above That I would never ever come back

Can you hear how the children weep? Chills of fear like a sawblade cutting deep

Once again there is pain I bring flames, I bring cold I'm the Blood Red Sandman coming home On this unholy night I will make you my own Blood Red Sandman Coming home again I'm coming home again

Red drops stain satin so white The way I sign my name The neighborhood's pretty dead at night And I'm the one to blame

Can you hear how the children weep? Chills of fear like a sawblade cutting deep

Once again there is pain I bring flames, I bring cold I'm the Blood Red Sandman coming home On this unholy night I will make you my own Blood Red Sandman Coming home again I'm coming home again

Scream all you want you won't wake up when you scream "No-one leaves...The Monsterican Dream

Can you hear how the children weep? Chills of fear like a sawblade cutting deep

Once again there is pain I bring flames, I bring cold I'm the Blood Red Sandman coming home On this unholy night I will make you my own Blood Red Sandman Coming home again I'm coming home again

Once again there is pain I bring flames, I bring cold I'm the Blood Red Sandman coming home On this unholy night I will make you my own Blood Red Sandman Coming home again I'm coming home again
