

# Bringing Back the Balls to Rock

Lordi

Attention class! - Here we come  
We kick your ass - That's lesson one  
I know you've been living in heresy  
Correction's what you need

Less isn't more - less is less  
The more, the better - the most, the best  
You gotta turn up the amps past overload  
Eardrums will explode

We are what we want to be  
Monsters of rock, we are for real  
Stand up for what you believe (and shout!)

Hail in the name of rock and roll  
Hail in the name of rock and roll  
Hail in the name of rock and roll  
Bringing back the balls, bringing back the balls to rock

Breathing fire, spitting blood  
Biting off the heads of bats and doves  
Dragon boots and guillotines  
That's what I want to see

We're the SMF with metal hearts  
Got love machines, we're breaking the law  
We've got the looks that kill  
We're the youth gone wild  
We're the creatures of the night

We are what we want to be  
Monsters of rock, we are for real  
Stand up for what you believe (and shout!)

Hail in the name of rock and roll  
Hail in the name of rock and roll  
Hail in the name of rock and roll  
Bringing back the balls, bringing back the balls to rock

Big drums, leather and chains  
Loud guitars, grimace and flames  
The two-finger signs  
Raised fists up high
