

# City of the Broken Hearted

Lordi

You're not taking it the wrong way  
The cloudy skies are all you get

There will be another new day  
All dark and cold like all the rest  
Like all the rest

Another night another failure in love  
You won't get anything from heaven above

In the city of the broken hearted  
Your fears will get you  
In the city of the broken hearted  
Your dreams won't come true

Now you're searching for solutions  
And you're desperate cause you can't go on  
No no

So you make a resolution  
It's not lonely if you're dead and gone

No more nights that end in failure in love  
Still won't get anything from heaven above

In the city of the broken hearted  
Your fears will get you  
In the city of the broken hearted  
Your dreams won't come true  
In the city of the broken hearted  
Your fears will get you

In the city of the broken hearted  
Your fears will get you  
In the city of the broken hearted  
Your dreams won't come true  
In the city of the broken hearted  
Your fears will get you  
In the city of the broken hearted  
Your dreams they won't come true  
No they won't come true

In the city of the broken hearted  
In the city of the broken hearted  
In the city of the broken hearted  
In the city
